

Davit Mamuladze

Mobile Application Developer (Flutter / iOS & Android)

(+995) 574-220-448 | datamamuladze@gmail.com | mamuladze.dev | [LinkedIn](#) | [GitHub](#) | Batumi, Georgia

Results-driven Mobile Application Developer specializing in Flutter and Clean Architecture with a proven track record of shipping commercial iOS and Android applications. Experienced in driving end-to-end product lifecycles-from robust BLoC state management and Agile (Jira) workflows to CI/CD automation, scalable backend integrations, and in-app monetization.

Technical Skills

Core Mobile: Dart, Flutter, Kotlin, Java, BLoC Pattern, Clean Architecture, Provider, Android SDK

Testing & CI/CD: Unit & Widget Testing (*bloc_test*, *mocktail*), GitHub Actions, Codemagic

Cloud, APIs & Monetization: Firebase (Auth, Firestore, FCM, Storage), REST APIs, Supabase, RevenueCat, Paddle

Developer Tools: Git, Jira, Google Play Console, App Store Connect, Postman, Android Studio, VS Code

Spoken Languages: Georgian (Native), English (B2 / Professional Working), German (Elementary)

Experience

Freelance Mobile Application Developer

Nov. 2023 – Present

Self-Employed / Independent Contractor

Batumi, Georgia

- Architected and published commercial iOS and Android applications using Flutter and Clean Architecture from inception to store approval.
- Built robust reactive UI and decoupled business logic with the BLoC pattern, maintaining high test coverage via *bloc_test* and *mocktail*.
- Engineered monetization infrastructure, integrating RevenueCat and Paddle for cross-platform in-app subscriptions and paywalls.
- Automated multi-platform build and deployment pipelines using GitHub Actions and Codemagic, cutting manual release overhead.

Web Developer

Mar. 2023 – Oct. 2023

Poligrafisti

Batumi, Georgia

- Engineered the company's official catalog web platform, improving asset loading speeds by 35% and optimizing responsive UX.

Featured Projects

MyBSU | *Flutter, BLoC, Clean Arch, REST API, FCM, App Store, Play Store*

2025 – 2026

- Engineered the official student companion application for Batumi Shota Rustaveli State University, architected to support 10,000+ students.
- Integrated university REST APIs for real-time timetables and grade tracking; implemented Firebase Cloud Messaging for targeted push alerts.
- Maintained high codebase reliability via comprehensive unit/bloc testing and published live releases on the Apple App Store and Google Play.

Slim & Simple | *Flutter, BLoC, Firestore, RevenueCat, Paddle, Subscriptions*

2026

- Developed a full-featured iOS/Android calorie tracker with dynamic macro calculation algorithms and tailored nutrition planning.
- Architected complete subscription flow using RevenueCat and Paddle SDKs, handling receipt validation, paywalls, and entitlements.
- Utilized Cloud Firestore and Firebase Auth for instantaneous offline-first sync across multiple devices.

Bsueli | *Flutter, Dart, Firebase Suite (Auth, Firestore, Storage), Clean Architecture*

2026

- Designed and implemented a real-time student networking platform featuring encrypted direct messaging and real-time community feeds.
- Applied Clean Architecture layers (Data, Domain, Presentation) to decouple Firestore listeners from UI components.

Andazioni | *Flutter, Dart, Android SDK, UI/UX, Play Store*

2024

- Published an interactive Android application on Google Play Store delivering randomized Georgian proverbs with zero latency.

Education

Batumi Shota Rustaveli State University

Bachelor of Science in Computer Science

Batumi, Georgia

Oct. 2023 – Present

Vytautas Magnus University (Erasmus+ Exchange)

Coursework: OOP, Software Eng., Project Management, Networks, Internet & Digital Sound Tech

Kaunas, Lithuania

Feb. 2026 – June 2026

University of Ostrava (Exchange Program)

Computer Science Coursework

Ostrava, Czechia

Feb. 2025 – June 2025
